Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner inquired about particulars of 1/27/05 letter & misnumbered after final amendment. The paper was not in the scanned file of the incorrect serial #. Mr.Kap offered to & FAXed a copy of the missing paper, but the examiner informed him that she probably could not use it, because it needed to be scanned & processed before she was allowed to act on it, but she would enquire as to what could be done. The results of her enquiries were left as a message: As it was applicant error (wrong serial # 09/996,736) & no amendment was received in the present file (10/059,978) before abandonment date, the paper could not be considered timely, hence could not be entered. The examiner was advised that applicant's best recourse would probably involve petitioning for unintentional abandonment. .
